

Anvesh jain

Data Science Intern | Python | SQL | Machine Learning | Data Analysis

Jaipur, Rajasthan, India | +91-8949167574 | anveshjainj@gmail.com

LinkedIn: <https://www.linkedin.com/feed/> | GitHub: <https://github.com/AJ0043> | <https://my-portfolio-ochre-pi-46.vercel.app>

Data Science-focused MCA candidate with hands-on experience in Python, SQL, Pandas, NumPy, Matplotlib, Seaborn and data analysis. Skilled in exploratory data analysis, data cleaning, data integration, statistical analysis and data visualization. Currently developing expertise in Machine Learning, with practical experience working on real-world datasets and data-driven projects. Seeking a Data Science Internship to apply analytical and machine learning skills to real-world problems.

PROFESSIONAL EXPERIENCE

Frontend Web Developer – Kajkarma

Kolkata, West Bengal, India | Aug 2025 – Mar 2026

- Developed responsive and scalable web applications using React.js and Next.js.
- Built reusable UI components and implemented dynamic routing for web applications.
- Integrated REST APIs and worked with Postman for API testing and development.
- Optimized application performance and improved responsiveness across different devices.
- Collaborated on application development, debugging and implementation of new features.

Full-Stack Developer Intern – Easy Dots

Technologies

Agra, Uttar Pradesh, India | Jan 2023 – Nov 2023

- Contributed to web application development during an 11-month internship.
- Worked on application functionality, debugging and feature implementation.
- Gained practical experience in software development, problem-solving and application testing.
- Worked with development tools and technologies to support application requirements.

PROFESSIONAL SKILLS

Programming: Python, SQL

Data Analysis: Pandas, NumPy, Data Cleaning, EDA, Data Integration

Data-Visualization: Matplotlib, Seaborn

Machine-Learning: Regression, Classification, Clustering, Feature Engineering, Model Evaluation

Statistics: Descriptive Statistics, Correlation, Probability, Hypothesis Testing

Databases: MySQL

Tools: Jupyter Notebook, Git, GitHub, VS Code, Google Colab.

Currently Learning: NLP, FastAPI, Docker, GenAI(From IIT Roorkee)..

EDUCATION

- Master of Computer Applications (MCA)**
Amity University Online | First Division | ~70%
2024-2026
- Bachelor of Commerce (B.Com)**
Parishkar International College, Jaipur
2019-2022
- Post Graduate Diploma in Computer Applications (PGDCA)**

CERTIFICATIONS

- Rajasthan State Certificate in Information Technology(RS-CIT)**
Vardhman Mahaveer Open University, Kota
- Post Graduate Diploma in Computer application**
Maharishi Mahesh Yogi Vedic Vishwavidyalaya

PROJECTS

Indian Job & Salary Analysis

- Analyzed job titles, salaries, experience levels, employment types and remote-work ratios.
- Used GroupBy, Aggregation, Pivot, Melt, Crosstab and MultiIndex operations.
- Created bar charts, histograms, box plots, violin plots and other visualizations.
- Investigated salary distributions, outliers and relationships between job characteristics.

Employee Attrition Prediction & Workforce Analytics

Python | Pandas | NumPy | Scikit-learn | SQL | Matplotlib | Seaborn

- Performed data cleaning, preprocessing and exploratory data analysis on employee workforce data to identify key factors influencing employee attrition.
- Analyzed relationships between salary, job satisfaction, overtime, experience, department and employee turnover using statistical analysis and data visualization.
- Engineered relevant features and prepared categorical and numerical variables for machine learning.
- Built and compared classification models including Logistic Regression, Decision Tree and Random Forest to predict employee attrition.
- Evaluated model performance using Accuracy, Precision, Recall, F1-Score, ROC-AUC and Confusion Matrix.
